

Dura Gloss LS Supreme - is "state-of-the-art" Epoxy Polymer Technology and resistant to ultra violet deterioration common to other epoxies. The result is a *light stable*, easy-to-use, medium viscosity finish that is virtually bubble free! Dura Gloss LS provides excellent penetration characteristics, and bright, clear coats that last indefinitely. It will completely *wet out* (spread out evenly while absorbing) 3 layers of thread.

- U40-202 DURA GLOSS LS 2 oz.
- U40-204 DURA GLOSS LS 4 oz.
- U40-208 DURA GLOSS LS 8 oz.

- U40-232 DURA GLOSS LS 32 oz
- U40-2128 DURA GLOSS LS gal.

LS "HI-BUILD"
One coat perfection!

Dura Gloss LS Supreme "Hi-Build" - is a dual purpose polymer. It can be used on light fly rod wraps, and is equally proficient on heavy trolling wraps. With 100% solids, consisting of an highly refined epoxy resin and a specially formulated cycloaliphatic amine hardener.

LS "Hi-Build" is designed to be a *one coat* rod finish regardless of the size and type of wrap. The end result is a tough and flexible coating.

- U40-502 DURA GLOSS LS HI-BUILD 2 oz.
- U40-508 DURA GLOSS LS HI-BUILD 8 oz.
- U40-5128 DURA GLOSS LS HI-BUILD gal.

Mixing Syringes - color coded and graduated markings for exact measurement of Dura-Gloss resin and hardener. Sold in pairs, 3 cc per syringe. Uses no lubricants and therefore eliminates the possibility of "fish-eye" or other contaminations.

- U40-8 COLOR CODED MIXING SYRINGES - ONE PAIR 3cc per syringe

Perma Gloss - The ultimate one-part urethane rod finish. For those requiring a water clear, non-yellowing finish that will outlast the rod itself in durability.

The perfect finish for fly rods, light and medium spin rods, pack rods, or whenever a light low build finish is preferred. An excellent coating for wood reel seats and/or the entire rod.

- U40-1 PERMA GLOSS 1 oz.
- U40-14 PERMA GLOSS 4 oz.

Color Lock - is a water based polymer resin which locks in the true color of the thread. It will even maintain the original luster of gold thread.

The ease of application is exceptional, and brushes clean-up readily in tap water.

Color Lock is designed to complement Perma Gloss, but may be used under *any* finish.

- U40-2 COLOR LOCK 1 oz.
- U40-24 COLOR LOCK 4 oz.
- U40-264 COLOR LOCK 1/2 gal.

- Where applicable appropriate sales taxes will be added. Shipping and handling charges vary depending upon weight of shipment and Priority requested.
- Payment using Visa or Master Card Available Contact HIS Rod Shop to make arrangements.
